by Credit Card or PayPal
by Mail

Regular credit card payments can be made through PayPal, and it does not require one to have an account with Paypal. This way is secure and converts any currency to US Dollars, in case the payment is made from anywhere in the world.

When you click the button below, you will be directed to a secure page where you need to fill in the Surname Project that you are making the contribution, and the amount. The top portion of that page is for those who have a PayPal account, and the bottom is for **VISA, MASTERCARD, AMERICAN EXPRESS and DISCOVER.**

Once FamilyTreeDNA receives the money, it will be allocated to the surname project of your choice, and the Group Administrator of the project will see it in his Group Administrator's Page.

**** The general fund is a feature that FamilyTreeDNA offers, that allows members to donate money for other potential members' tests. The money is used at the Group Administrator's discretion. ****

*** Please select the first number / letter of the group in the first list. Then select the group name from the second list.**
